Economics Professional, Business Development Expert  
and Consultant at Bufiredd Economic Consultancy.

6th of June, 2020.

**To;**  
The President,  
World Bank Group.

Dear Sir/Ma'am,

## **Appreciation for the Works of the World Bank in Developing Countries such as Nigeria.**

The impact made through developmental projects by the World Bank in Africa, Developing Countries and in particular in my country; Nigeria cannot be underemphasized.

Having grown to be a beneficiary either through the infrastructural projects or the advocacy on education of the female child in Nigeria, I am writing as a citizen and patriot to openly say thank you for all the works done in Nigeria and to all that this great organization will keep doing.

In this light, I am hopeful that when this meets the World Bank or the eligible staff in charge to give a response, I will get a reply from the World Bank and of which I will look forward to discussing further, working together and earnestly seeing that more beneficial projects for development of the people and nation is carried out in the country.

Thank you.

For the development of the Fatherland,

Somtochukwu Lady-Diana Okoye

Economics Professional and Development Advocate in Nigeria
